

# The Krieghoff K-80 PRO SPORTER

## The Next Level of Krieghoff Performance

Straighter head position and broader sight picture- the advantages the K-80 Pro Sporter brings to the game. The higher designed Floating Rib raises the head position on the stock, reducing perceived recoil and offering a wider range of vision.

See the target quicker - break it faster - improve your score!

The Floating Rib barrel creates a K-80 versatile enough to compete on both Sporting Clay courses and Skeet fields. Offered in 30" or 32" lengths, each Floating Rib barrel comes complete with choke tubes and the option to raise the POI from the factory set 50/50 to a 60/40 pattern.

Suspended above the barrel, the new Floating Rib design has a higher profile than standard Skeet and Sporting Clay competition shotguns. Paired with the new K-80 Adjustable stock with higher comb, this new design brings Krieghoff Performance to the next level.

For more information, contact your Authorized Krieghoff Dealer or visit [www.krieghoff.com](http://www.krieghoff.com)
